3 Accounts - recording method

eFlow offers two different Accounts for Customers by reference to the method of recording the passage of the Registered Vehicles on the M50 Toll Road, namely:

// Tag accounts; and

// Video accounts.

Either Account may be a Top-up Account or a Bill Pay Account. Irrespective of the type of Account selected, all vehicles that use the M50 Toll Road are photographed/video recorded. These photographs/images are retained for the purpose of enforcement and to address and resolve any disputes that may arise in relation to a vehicle or an account.

4 Tolls

4.1

Without affecting any legal obligation imposed on you by applicable law, you are liable to pay to eFlow each and every Toll that may be incurred by Registered Vehicles pursuant to applicable law and such amounts shall be discharged in accordance with this Agreement.

4.2

The Tolls applicable to any Toll Road (including the M50 Toll Road) may be adjusted from time to time in accordance with applicable law.

4.3

eFlow can unilaterally alter the class of vehicle to which a Tag Account or Video Account relates, and you shall pay the appropriate Toll applicable to this new classification, if you are using a Tag Account or Video Account for a class of vehicle which is not consistent with the class of vehicle of the Registered Vehicles and to which the Tag Account or Video Account relates.

4.4

You agree to notify eFlow of any change of Registered Vehicle or of name or address or registered office, as the case may be, within seven (7) days of the occurrence of the change.

5 Tags & tag accounts

5.1

A Tag may only be used for the Registered Vehicle (and related Tag Account) for which it is issued by eFlow.

5.2

It is your responsibility to ensure that Tag (s) are affixed by you to the Registered Vehicle (s) for which it has been registered in accordance with the Tag mounting instructions provided by eFlow such that:

- (a) it is capable of satisfactorily communicating with the Toll Collection System; and
- (b) passage of the Registered Vehicle through the M50 Toll Road (or any other toll road) can be recorded by the Toll Collection System (or any system in place on any other toll road for the purposes of ETC).

5.3

If you acquire a Tag from an operator of a Toll Road other than the M50 Toll Road and propose to use this tag in a Registered Vehicle along with the Tag for that Registered Vehicle, it is your responsibility to ensure that the Tag is read by the Toll Collection System.

5.4

Where a Toll Road is an inter-operable Toll Road and the Registered Vehicle has a Tag installed in it in accordance with this Agreement, you may be able to effect the discharge of the Toll

payable in relation to the use of such toll road by such Registered Vehicle:

- (a) by having its passage recorded through its Tag communicating with such toll road's system for ETC;
- (b) details of such transaction being supplied to eFlow, such that eFlow will discharge the amount due in respect of such Toll; and
- (c) the amount of your Account:

5.5

In the case of a Tag Account, where the passage of the Registered Vehicle on the Toll Road is not recorded using the Tag and an image of the Registered Vehicle's license plate is recorded, eFlow shall be entitled to charge a Toll in respect of such use as if the Account is a Video Account, not a Tag Account.

5 Tags & tag accounts - Cont'd

5.6

Where you have breached this Agreement (whether by reason of failing to pay to eFlow any amount due to it in accordance with this Agreement or otherwise or, in the case of a Top-up Account, the balance of such Top-up Account is less than the Minimum Balance), eFlow may treat you as if the Registered Vehicles are not the subject of a Tag Account in which case you shall be liable to pay Tolls as if the Registered Vehicles are Unregistered Vehicles.
